1. Water Pollution Control Authorities

A WPCA is any town or district board or agency responsible for maintaining facilities or plans to control water contamination, usually by running a sewer system.

Sec. 7-246. Water pollution control authority; designation. Preparation of municipal plan. Successor to sewer authority; validation of sewer authority acts. (a) Any municipality may, by ordinance, designate its legislative body, except where the legislative body is the town meeting, or any existing board or commission, or create a new board or commission to be designated, as the water pollution control authority for such municipality...

Sec. 7-247. Powers and duties of water pollution control authority re sewerage systems. Obligation to consider feasibility of sewage as energy source. Establishment of decentralized wastewater management districts. (a) Any municipality by its water pollution control authority may acquire, construct and operate a sewerage system or systems; may enter upon and take and hold by purchase, condemnation or otherwise the whole or any part of any real property or interest therein which it determines is necessary or desirable for use in connection with any sewerage system; may establish and revise rules and regulations for the supervision, management, control, operation and use of a sewerage system, including rules and regulations prohibiting or regulating the discharge into a sewerage system of any sewage or any stormwater runoff which in the opinion of the water pollution control authority will adversely affect any part or any process of the sewerage system except that any such rule or regulation regarding decentralized systems shall be approved by the local director of health before such rule or regulation may be effective; may enter into and fulfill contracts, including contracts for a term of years, with any person or any other municipality or municipalities to provide or obtain sewerage system service for any sewage, and may make arrangements for the provision or exchange of staff services and equipment with any

person or any other municipality or municipalities, or for any other lawful services.

If owned and operated by the municipality, WPCAs have all the same powers to levy and collect assessments for the sewer's creation, acquisition, and/or operations as towns do for real estate taxes, except with priority junior to them.

Sec. 7-249. Assessment of benefits. At any time after a municipality, by its water pollution control authority, has acquired or constructed, a sewerage system or portion thereof, the water pollution control authority may levy benefit assessments upon the lands and buildings in the municipality which, in its judgment, are especially benefited thereby... No lien securing payment shall be filed until the property is assessed... The water pollution control authority may divide the total territory to be benefited by a sewerage system into districts and may levy assessments against the property benefited in each district separately... The water pollution control authority shall place a caveat on the land records in each instance where assessment of benefits to anticipated development of land zoned for other than business, commercial or industrial purposes or land classified as farm land, forest land or open space land has been deferred.

Sec. 7-251. New and supplementary assessments. If any assessment is not valid or enforceable for any reason, a new assessment may be made. If any assessment is made which is not sufficient to cover the entire cost of the work to be paid for by such assessment, a supplementary assessment may be made...

Sec. 7-252. Due date of assessment. Assessments shall be due and payable at such time as is fixed by the water pollution control authority, provided no assessment shall become due until the work or particular portion thereof for which such assessment was levied has been completed... No assessment shall be due and payable earlier than thirty days after the first publication of ... notice [by newspaper and direct mailing].

After the work is completed
WPCAs

A blanket lien can be recorded to secure WPCA benefit assessments for up to thirty years – even before the facility is constructed, but it will not secure the debt until after the work is completed and cost is ascertained. Hartford Federal Savings v. Lenczyk, 153 Conn. 462-63 (1966). At least one court has held that individual lien continuance certificates need not be filed after each installment falls delinquent, Oxford v. JTT&M, Inc., 48 Conn.L.Rptr. 84 (2009), but the safer practice is to do so anyway.

Sec. 7-140. Assessment a lien; foreclosure. Whenever assessments of benefits for any public work or improvement have been lawfully made by any city or borough and such public work or

improvement has been completed and certificates of lien have been signed by the duly constituted authorities, describing the premises upon which any such lien is claimed and stating the amount claimed as a lien thereon, and have been lodged with the town clerk, such assessments of benefits shall be and remain a lien upon the land upon which the same have been made, and no such city or borough shall be required to lodge for record any further certificate of any such lien. Such liens may be foreclosed in the manner provided by law for the foreclosure of tax liens.

Sec. 7-253. Installment payment of assessment. The water pollution control authority may provide for the payment of any assessment in substantially equal annual installments, not exceeding thirty, and may provide for interest charges applicable to such deferred payments... The water pollution control authority shall cause the town clerk of the town in which the property so assessed, in such equal installments, is located, to record on the land records a certificate, signed by the tax collector or treasurer of the municipality [a form for which is provided in this statute]...

Such certificate shall operate as notice of the existence of a plan for payment of such assessment by installments and the town clerk shall cancel or remove the same within seven calendar days after the last installment due has been satisfied, or the total assessment together with all interest, fees and charges has been paid in full.

Sec. 7-254. Delinquent assessments. Liens. Assignment of liens. (a) Any assessment of benefits or any installment thereof, not paid within thirty days after the due date, shall be delinquent and shall be subject to interest from such due date at the interest rate and in the manner provided by the general statutes for delinquent property taxes. Each addition of interest shall be collectible as a part of such assessment.

*On assessments
min interest
is \$5-*

(b) Whenever any installment of an assessment becomes delinquent, the interest on such delinquent installment shall be as provided in subsection (a) of this section or five dollars, whichever is greater. Any unpaid assessment and any interest due thereon shall constitute a lien upon the real estate against which the assessment was levied from the date of such levy. Each such lien may be continued, recorded and released in the manner provided by the general statutes for continuing, recording and releasing property tax liens. Each such lien shall take precedence over all other liens and encumbrances except taxes and may be enforced in the same manner as property tax liens. The tax collector of the municipality may collect such assessments in accordance with any mandatory provision of the general statutes for the collection of property taxes and the municipality may recover any such assessment in a civil action against any person liable therefor.

(c) Any municipality, by resolution of its legislative body, may assign, for consideration, any and all liens filed by

the tax collector to secure unpaid sewer assessments [similar to real estate tax lien assignments in C.G.S. § 12-195h]...

If a sewer system is not owned by the WPCA itself but is instead owned privately, a WPCA can require those owners to form a corporate association to manage it. That association will impose and collect its own assessments (with ordinary lien priority), but the WPCA can also step in to act on that organization's behalf if the association fails to do its job.

Sec. 7-246f. Community sewerage systems. (a) Any municipal water pollution control authority may ensure the effective management of a community sewerage system as defined in section 7-245 and not owned by a municipality by requiring that the system be owned and managed as provided in this subsection... Such association shall have the power ... to defray the cost of such activities by levying assessments against the properties served by the system. Any such unpaid assessment shall constitute a lien upon the property against which such assessment was levied. Each such lien may be continued, recorded and released in the manner provided by the general statutes for continuing, recording and releasing property tax liens, and such lien may be foreclosed in the same manner as a lien for property taxes, but shall not be construed to have any greater priority than any ordinary lien upon such property..

(b) If the association owning a community sewerage system fails to take any action in accordance with requirements of subsection (a) of this section, the municipal water pollution control authority may take any such action on behalf of the association or any other action within the powers granted to such authority which is necessary to ensure the effective operation of the system and to prevent pollution of the waters of the state.. A municipal water pollution control authority may recover the cost of taking any action pursuant to this subsection by levying assessments, in the manner described in section 7-249, or charges, in the manner described in section 7-255, against the properties served by the system.

In addition to assessments, the WPCA can also levy sewer use charges in a manner similar to real estate taxes, except with priority junior to them. These liens, unlike the "blanket" lien for the cost of the system itself, are calculated from a customer's personal usage and only bind that one property.

Sec. 7-255. Charges. Hearing. Appeal. Payment by municipalities of charges upon specified classification of property or users. Optional payment plans. (a) The water pollution control authority may establish and revise fair and reasonable charges for connection with and for the use of a sewerage system. The owner of property against which any such

connection or use charge is levied shall be liable for the payment thereof..

Sec. 7-258. Delinquent charge for connection or use. Lien. Assignment of liens. (a) Any charge for connection with or for the use of a sewerage system, not paid within thirty days of the due date, shall thereupon be delinquent and shall bear interest from the due date at the rate and in the manner provided by the general statutes for delinquent property taxes. Each addition of interest shall be collectible as a part of such connection or use charge. Any such unpaid connection or use charge shall constitute a lien upon the real estate against which such charge was levied from the date it became delinquent. Each such lien may be continued, recorded and released in the manner provided by the general statutes for continuing, recording and releasing property tax liens. Each such lien shall take precedence over all other liens and encumbrances except taxes and may be foreclosed in the same manner as a lien for property taxes. The municipality may by ordinance designate the tax collector or any other person as collector of sewerage system connection and use charges and such collector of sewerage system connection and use charges may collect such charges in accordance with the provisions of the general statutes for the collection of property taxes. The municipality may recover any such charges in a civil action against any person liable therefor..

(b) Any municipality, by resolution of its legislative body, may assign, for consideration, any and all liens filed by the tax collector or collector of sewerage system connection and use charges to secure unpaid sewerage connection and use charges [similar to real estate tax lien assignments in C.G.S. § 12-195h]...

2. Regional Water Authorities

A Regional Water Authority is essentially a WPCA operated by multiple towns jointly. It has somewhat more expansive powers than a single-municipality WPCA, and its delinquency liens last for ten years without the need to file a continuation certificate.

Sec. 22a-506. Regional water pollution control authorities: Assessments, rates, fees, charges and penalties. (b) Any assessment of benefits, including any installment thereof, and any charge, fee, fine or other amount that is not paid within thirty days after the due date shall be delinquent, shall be subject to interest and shall constitute a lien upon the premises served and a charge upon the owner thereof all in the manner provided both by the provisions of the general statutes for delinquent property taxes and by section 7-258. The rules and regulations of the authority may provide for the discontinuance of water pollution control service for nonpayment of taxes, special assessments, fees, rates, penalties or other charges

therefor imposed under sections 22a-500 to 22a-519, inclusive. Such lien shall take precedence over all other liens or encumbrances except taxes and may be foreclosed against the lot or building served in the same manner as a lien for taxes, provided all such liens shall continue until such time as they shall be discharged or foreclosed by the authority without the necessity of filing certificates of continuation, but in no event for longer than ten years. The authority may institute a civil action against such owner to recover the amount of any such fee or charge which remains due and unpaid for thirty days along with interest thereon at the same rate as unpaid taxes and with reasonable attorneys' fees.

3. Municipal Waterworks Systems

Drinking water

A waterworks system is a public water supply system under the control of a town or district.

Sec. 7-234. Operation of system, when. Payment of expenses. Waiver of acquisition rights. Any town, city or borough or district organized for municipal purposes may acquire, construct and operate a municipal water supply system where (1) there is no existing private waterworks system, (2) the owner or owners of a private waterworks system are willing to sell or transfer all or part of such system to the municipality, or (3) a public regional waterworks system within said town, city or borough or district is willing to sell or transfer all or part of the system to the municipality...

The municipality or its waterworks agency has all the same powers to levy and collect water assessments as towns do for real estate taxes, except with priority junior to them, and only after they are at least 30 days delinquent.

Sec. 7-239. Rates for use. (a) The legislative body shall establish just and equitable rates or charges for the use of the waterworks system ...

(b) If any rates or charges established pursuant to this section are not paid within thirty days after the due date, demand for such rates or charges may be made on the owner of the premises served in the manner provided in subsection (a) of section 12-155, and thereafter an alias tax warrant may be issued in the manner provided in sections 12-135 and 12-162. The rates or charges established pursuant to this section, if not paid when due, shall constitute a lien upon the premises served and a charge against the owner thereof, which lien and charge shall bear interest at the same rate as would unpaid taxes. Such a lien not released of record prior to October 1, 1993, shall not continue for more than two years unless the superintendent of the waterworks system has filed a certificate of continuation of the lien in the manner provided under section 12-174 for the

continuance of tax liens, and when so continued shall be valid for fifteen years. A lien described in this section shall take precedence over all other liens or encumbrances except taxes and may be foreclosed against the lot or building served in the same manner as a lien for taxes.

(c) Any municipality, by resolution of its legislative body, may assign, for consideration, any and all liens filed by the superintendent of the waterworks system or tax collector to secure unpaid water charges [similar to real estate tax lien assignments in C.G.S. § 12-195h]..

(d) The amount of any such rate or charge which remains due and unpaid for thirty days may, with reasonable attorneys' fees, be recovered by the legislative body in a civil action in the name of the municipality against such owners..

Sec. 12-135. Execution of tax warrant. Collection by successor or by executor or administrator of deceased collector.

(a) Any collector of taxes, and any state marshal or constable authorized by such collector, shall, during their respective terms of office, have authority to collect any taxes and any water or sanitation charges due the municipality served by such collector for which a proper warrant and a proper alias tax warrant, in the case of the deputized officer, have been issued. Such alias tax warrant may be executed by any officer above named in any part of the state, and the collector in person may demand and collect taxes or water or sanitation charges in any part of the state on a proper warrant. Any such state marshal or constable so authorized who executes such an alias tax warrant outside of such state marshal's or constable's precinct shall be entitled to collect from the person owing the tax or the water or sanitation charges the fees allowed by law, except that the minimum total fees shall be five dollars and the maximum total fees shall be fifteen dollars for each alias tax warrant so executed. For the purposes of this subsection, "water or sanitation charges" means (1) any rates or charges established pursuant to section 7-239, or (2) any charges imposed by a municipality for the collection and disposal of garbage, trash, rubbish, waste material and ashes.

Sec. 12-155. Demand and levy for the collection of taxes and water or sanitation charges. (a) If any person fails to pay any tax, or fails to pay any water or sanitation charges within thirty days after the due date, the collector or the collector's duly appointed agent shall make personal demand of such person therefor or leave written demand at such person's usual place of abode or deposit in some post office a written demand for such tax or such water or sanitation charges, postage prepaid, addressed to such person at such person's last-known place of residence..

(b) After demand has been made in the manner provided in subsection (a) of this section, the collector may (1) levy for

any unpaid tax or any unpaid water or sanitation charges on any goods and chattels of such person and post and sell such goods and chattels in the manner provided in case of executions, or (2) enforce by levy and sale any lien upon real estate for any unpaid tax or levy upon and sell such interest of such person in any real estate as exists at the date of the levy for such tax.

(c) For the purposes of this section, "water or sanitation charges" means (1) any rates or charges established pursuant to section 7-239, or (2) any charges imposed by a municipality for the collection and disposal of garbage, trash, rubbish, waste material and ashes.

Sec. 12-162. Alias tax warrant. Service of warrants upon financial institutions. Request for information... (b)(2) Notwithstanding any provision of the general statutes, an alias tax warrant shall not be issued by a tax collector to levy upon the real estate of any person and sell such real estate pursuant to section 12-157 solely for the purpose of collecting any water or sanitation charges.
